AMENDMENT

Sir:

In response to the Office Action dated May 23, 2003 (which has not been signed), please amend the claims without prejudice as set forth below.

68-79 all limit the latching and release apparatus to one that is manually actuatable in claims 1, 23, 48, 49-51, 53, 59-61, 63 and 67. As explained above, a manually actuatable latching and release member makes contact by the user of the container or cartridge unnecessary to remove the latter parts.

The claims defining the invention are believed to be allowable, and such action is respectfully requested.

The Examiner is invited to telephone the undersigned if a discussion of any outstanding issues in this application would expedite its prosecution.

Respectfully submitted,
